

STONEUK - ST-A8Pro

The ST-A8Pro is a premium smart lock featuring Palm vein, 3D face recognition, Fingerprint, Password, RFID card, Mechanical key, Remote access, and Remote control access. Constructed from high-strength aluminum alloy, it's durable and resistant to external forces. Its built-in anti-theft lock cylinder, compatible with a variety of standard lock bodies, and multiple security mechanisms effectively prevent technical openings, providing solid and reliable physical protection for your home.

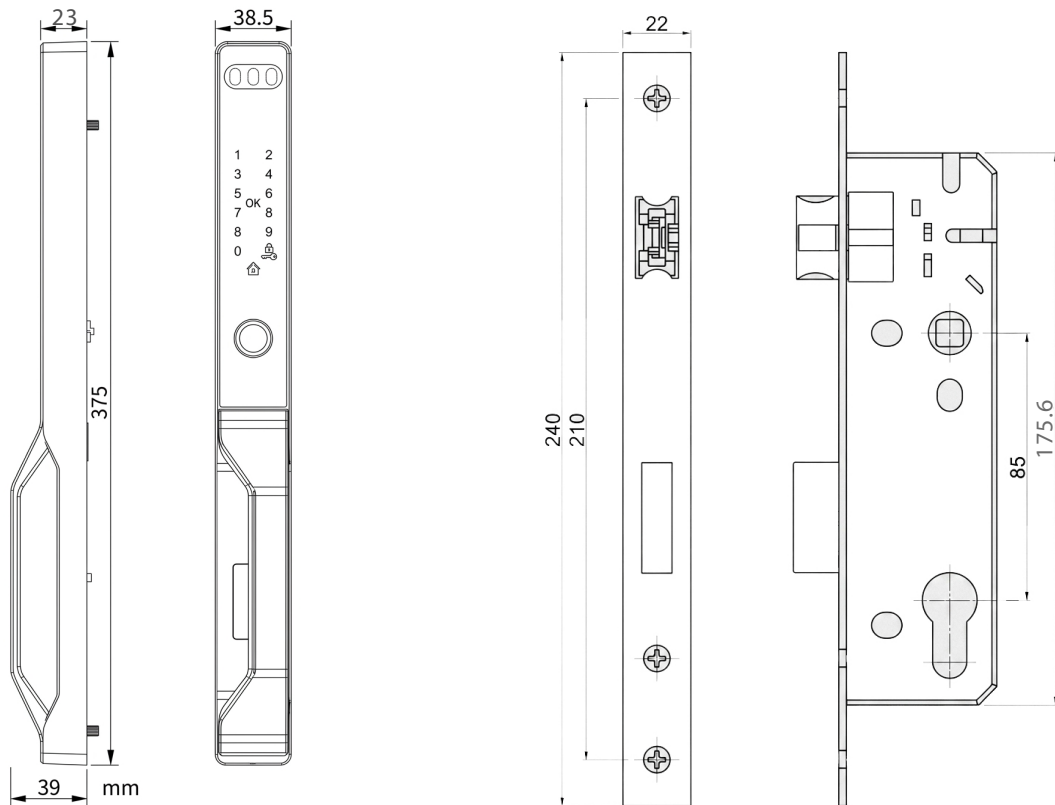

KEY FEATURES

- Multi access with Palm Vein, Face Recognition, Fingerprint, Password, Card, Mobile and Remote.
- 3D Face Recognition with built-in infrared night vision.
- Open the door with just a glance, keeping your hands free.
- Semiconductor fingerprint sensor for higher accuracy.
- Use the dedicated APP for remote authorization, status monitoring, and complete management.
- Built-in physical keyhole ensures access during power failure or emergencies.
- Suitable for any weather conditions.
